

This Circuit not to be used in mains operated circuits.
 Do not Use this Circuit for High voltages or currents.
 This is to test battery based experiments only
 Use this circuit for hobby or education only
 Max Voltage 58V, AC or DC audio frequency.

TITLE: del00023

Document Number: Dial AVO Meter

Date: 14-10-2004 06:10:40p Sheet: 1/1

Connect Digital Voltmeters Directly Here
 Analog Millivolometers with Resistor
 Use Resistor Dividers to calibrate

Calibrated Pot gives the reading
 Wire Wound Linear Dial Potentiometer

Optional Meter

Low Battery
